

## World's most Sustainable, Invincible, and Durable Pallets

Envirolastech uses its award-winning, proprietary technology to make the worlds most solid, maintenance free and eco-restorative pallets, and...it's made locally in St. Charles Minnesota. Envirolastech products far surpass the performance of traditional wood, and all other composite pallets. That's why it comes with an industry leading...**2 Year unconditional warranty.**

### Pallets for Commercial and Residential use.

#### Strongest in Industry, ASLM Result's will Show

- 3000 PS7 ambient temp (70)
- 6000 PS7 At -20
- 6500 PS7 At -40
- Product grows in strength as it gets colder

#### Superior Strength

- Won't warp, split or crack
- Won't rot or mold
- Impervious to water, including salt water
- Incredibly long lifespan
- Only known plastic composite that GAINS STRENGTH (doesn't get brittle) in cold weather
- Warranted 2 years.

#### Anti micro bacterial- Will never cause or harbor any food bacteria.

- Easy to clean
- Does not mold, rot or warp

#### Custom

- Custom coloring available
- custom sizes
- 3 & 4 Stringers 40"x 40" & 40"x 48"
- 4 way Block 40"x 48"

#### All Pallets are trackable

- Barcodes
- GPS

#### ECO- RESTORATIVE

- Made with 100% post consumer recycled materials (plus coloration)
- Envirolastech products/pallet's can be recycled

#### Award Winning & Tested

- Winner-Minnesota Cup "Clean-Touch"
- Winner-Polymer Solutions "Top 25 World plastic Innovations"
- Awarded engineering stamp certifying for structural weight-bearing
- Independently tested at Materials Testing Services (U of Northern Iowa), Twin Cities, and COMTEC at Winona State University.
